

September 2009

On July 24 the submissions for the first edition of the Internet documentary festival DOCBOAT/WARSAW NONFICTION E-FEST were closed. The festival starts in September (www.iplex.pl). We received a lot of movies from around the world. They are very enjoyable to watch, but we must also prepare ourselves for the difficult decisions in order to select sixteen finalists who will compete in the contest for the best feature documentary (over 60 minutes long), for the GRAND PRIX VISTULA RIVER prize of € 5000.

Apart from the contest, our festival will be filled with thematic runs. The titles of the chosen movies will soon be available on our website.
